PUMPS FOR PATIENTS®

Chemotherapy Septic Services

SPONSORSHIP OPPORTUNITIES

Your support can take one more worry off a family's plate

$250+

A meaningful first step into our mission and a visible sign to your customers that your business stands for something.

$500+

Deeper visibility, stronger association, and a digital badge to show your support wherever your business shows up online.

$1,500+

Substantial visibility across every digital channel we own, plus a dedicated spot in our national newsletter.

$2,500+

Top-tier visibility everywhere Pumps for Patients appears: online, in print, and in every email we send.

The more you invest, the more visible your brand becomes.

Logo in Email Correspondence Footer	Logo in emails sent directly to our Pumping Partners, putting your business in front of our growing database of industry professionals.

READY TO MAKE AN IMPACT?

Your sponsorship helps Pumps for Patients connect eligible chemotherapy patients with no-cost septic pumping services while expanding our reach into more communities.

WHY PUMPS FOR PATIENTS EXISTS

Cancer treatment is already overwhelming. Septic system maintenance shouldn't be another burden families have to carry.

Pumps for Patients connects eligible chemotherapy patients who rely on septic systems with septic professionals who donate or discount pumping services, helping remove one more financial burden so families can focus on what matters most: their treatment and healing.

YOUR SPONSORSHIP HELPS US

- **Connect eligible patients with trusted septic professionals.**
- **Expand our reach into more communities.**
- **Increase awareness through industry and healthcare networks.**
- **Cover any costs associated with pumping services so patients never receive a bill.**
- **Remove one more financial burden from families during cancer treatment.**

BECOME A SPONSOR

Choose the sponsorship level that best fits your business and the visibility you want. Every level helps us continue building a network of supporters and septic professionals across the country.
